## Natural Comfort

Natural Comfort matrassen

GB

A good night’s sleep is essential for our well-being. On average, we sleep six to eight hours every night, and therefore the choice of mattress is very important.

Natural Comfort matrassen

Comfort means different things to different people. Natural Comfort mattresses are based on traditional Japanese principles, where carted cotton is the basic element. The classic cotton mattress is quite firm and comfortable, and combined with a slat frame, it offers effective back support.

Natural Comfort matrassen

The supreme quality of the cotton layers lies in their ability to lead moisture away from the body which allows your body to breathe and maintain a comfortable body temperature, whether it is cold or warm. The five mattress types consist of different combinations of layers, each with its own character: two fusion-type mattresses and three classic cotton mattresses. As cotton is a natural material, it is recommended to turn the mattress over, to shake, roll and beat it regularly – just as you do with cushions or duvets with natural fillings. The fusion mattresses are maintenance-free luxury mattresses with a core of Latex or spring pockets surrounded by cotton.

Natural Comfort matrassen

Natural Comfort mattresses are flexible and especially developed for sofa beds. The mattresses have no partitions which ensures an even surface to lie on.

### D

Gut zu schlafen bedeutet sich wohl fühlen. Und da wir durchschnittlich 6-8 Stunden pro Tag schlafen, ist die Wahl der Matratze sehr wichtig.

Natural Comfort matrassen

Die Auffassungen und Meinungen darüber, welche Matratze die komfortabelste sein mag, sind ganz individuell. Natural Comfort Matratzen sind nach traditionellen, japanischen Prinzipien hergestellt, wobei gekämmte Baumwolle der Hauptbestandteil ist. Die klassische Baumwollmatratze ist relativ fest, komfortabel und zusammen mit einem Lattenrost stützt sie den Rücken hervorragend.

Natural Comfort matrassen

Baumwolle hat die besondere Eigenschaft, dass sie Feuchtigkeit vom Körper fortleitet, dem Körper zu atmen erlaubt und für eine angenehme Körpertemperatur sorgt, egal ob es kalt oder warm ist. Die 5 Matratzentypen bestehen jeweils aus Kombinationen verschiedener Materialschichten, jeder Typ hat seine speziellen Eigenschaften: 2 Fusions-Matratzen und 3 klassische Baumwollmatratzen. Da Baumwolle ein Naturmaterial ist, empfiehlt es sich gelegentlich, die Matratze zu wenden, zu schütteln, zu rollen und zu klopfen – so wie man es mit Daunen-decken macht. Die Fusions-Matratzen sind pflegeleichte Luxusmatratzen, entweder mit Latex-oder Taschenfederkern, der in Baumwolle eingebettet ist.

Natural Comfort matrassen

Natural Comfort Matratzen sind flexibel und speziell für Schlafsofas entwickelt. Die Matratzen haben eine durchgehende, ungeteilte Liegefläche für optimalen Schlafkomfort.

### DK

God søvn er afgørende for vores velbefindende. Og da vi i gennemsnit sover 6-8 timer i døgnet, er valget af madras særdeles vigtig.

Natural Comfort matrassen

Der er mange opfattelser af og meninger om, hvilken madras er den mest komfortable. Forskellene er individuelle og ændrer sig fra person til person. Natural Comfort madrasser er baseret på et traditionelt japansk princip, hvor kartet bomuld er det vigtigste element. Den klassiske bomuldsmadras er relativ fast, komfortabel – og i kombination med en lamelbund giver den god støtte for ryggen.

Natural Comfort matrassen

Bomuldslagene har den kvalitet, at de lader kroppen ånde, transporterer fugt væk, og sikrer dig en behagelig kropstemperatur uanset om det er varmt eller koldt. De 5 madrastyper består af forskellige kombinationer af lag, som giver hver enkelt madras sin bestemte karakter: 2 fusions-madrasser og 3 bomuldsmadrasser. Da bomuld er et naturligt materiale, er det optimalt at bomuldsmadrasserne luftes, rulles og bankes med jævne mellemrum – ligesom en god dundyne. Fusionsmadrasserne er vedligeholdelses-frie luksusmadrasser med latexkerner eller posefjedre, omgivet af bomuld.

koud is. De vijf matrastypen bestaan uit verschillende lagencombinaties, waardoor iedere matras zijn eigen karakter heeft: twee »fusion«-matrassen en drie katoenen matrassen. Aangezien katoen een natuurlijk materiaal is, kunnen katoenen matrassen het beste regelmatig worden gelucht, omgedraaid en geklopt – net zoals je met een donzen dekbed doet. Fusion-matrassen zijn onderhoudsvrije luxe matrassen met een kern van latex of pocketveren, omgeven door katoen.

vaihtelevat henkilön mukaan. Natural Comfort –patjat ovat saaneet alkunsa perinteisistä japanilaisista patjoista, joiden peruselementtinä on karstattu puuvilla. Perinteinen puuvillapatja on tukeva, miellyttävä ja yhdessä sälepohjan kanssa se tukee hyvin selkää.

Natural Comfort matrassen

Puuvillakerrosten paras ominaisuus on niiden kyky johdattaa kosteutta kauemmas kehosta, antaa kehon hengittää sekä säilyttää sopiva ruumiinlämpötilä niin kylmässä kuin kuumassa ympäristössä. Kukin viidestä eri patjatyyppistä on muodostettu eri kerrosyhdistelmistä ja jokaisella on omat ominaisuutensa: valikoimassa on 2 yhdistelmäpatjaa ja 3 perinteistä puuvillapatjaa. Koska puuvilla on luonnonmateriaali, on suositeltavaa, että käännät patjaa sekä ravistelet, rullaat ja tammaat sitä säännöllisesti – samalla tavoin kuin luonnonmateriaaleilla täytettyjä tyynyjä ja peittojakin. Yhdistelmäpatjat ovat huoltovapaita luksuspajoja, joissa on täyteenä lateksia tai pussijouset sekä puuvillaa.

Natural Comfort matrassen

Natural Comfort -patjat ovat joustavia ja suunniteltu erityisesti vuodesohvia varten. Patjoissa ei ole väliseinämiä, mikä takaa yhtenäisen ja tasaisen makuualustan.
